

"METRONIDAZOLE PLEDGETS"
ABSTRACT OF THE DISCLOSURE

- 5 A dermatological delivery system comprising a topically
10 acceptable, inert support selected from the group consisting of cotton,
 rayon, polyester, polypropylene, wood pulp, mohair, nylon fleece, and
 neoprene foam, or combination thereof, impregnated with an about 0.1%
 to about 2% solution of metronidazole; the solution having a major
 solvent component comprising water, ethanol or a mixture of water and
10 ethanol, the support being operable to permit application of the solution
 to the skin.
